23rd March 2020

Dear Parents/Carers

Today we had 25 children in school. The purpose of closing schools is to try and slow down the spread of the virus. Having too many children in one place puts them and staff at risk. I would like to reduce the number.

This is what we would like you to do:

1. Please think of the school being open as an additional emergency service.
2. Try to arrange for someone else to look after your child.
3. Any parents/carers on shift work-please keep your child at home on the days when you are not working. (Tell us if you do.)
4. For staff working in other school settings, I expect many of you will be on rotas. Please keep your child at home on the days when you are not working.
5. If your shift finishes before the end of the school day, please come to collect your child.

Thank you for your co-operation.

Yours sincerely

Jim Hartley
Executive Head Teacher
