

Reading in Reception

In Reception, the children read a series of books from the Dandelion scheme. The Dandelion Launchers is a phonic reading series for beginner readers. The books can be used with any phonic programme and work very well alongside Letters and Sounds. The books are in numbered sequence to ensure structured progression. They also contain high-frequency words and tricky words appropriate for each level of phonic progression.

Children in Reception will be given one book to take home each week and this will be linked to their current reading level and phonics phase.
